

第四届中国西部(成都)国际供应链与物流技术装备博览会

4TH West China International Supply Chain & Logistics Expo

4-я Западно-Китайская Международная выставка цепей поставок и логистических технологий и оборудования (г.Чэнду)

March, 2022

成都世纪城新国际会展中心
Chengdu Century City New Int'l Convention
& Exhibition Center
Chengdu, Sichuan Province, P.R. China
www.transportlogisticexpo.com

4TH West China International Supply Chain & Logistics Expo will be held in March 2022, Chengdu Century City New Int'l Convention & Exhibition Center. With the theme of "Supply Chain Links the Eurasia World Island", the Expo consists of four sections: logistics services, logistics technology and equipment, international supply chain and cross border commerce. The Expo and concurrent events will be ideal offline one-to-one connection platform for the industries of China -EU Freight trains, international air freight, pharmaceutical international supply chain, smart logistics, cross-border e-commerce, and AGV manufacture.

The expo was supported and participated by Secretariat for Cooperation between China and Central and Eastern European Countries, China ASEAN Center, Trans Eurasian International Transport Coordination Committee, OSJD, UIC, CATA, China Civil Airport Association, China highway society and other organizations and industry associations; railway companies and port representatives from 35 countries. The concurrent conferences will discuss cooperation issues such as aviation, international trains, multimodal transport, cross-border trade, implementation and influence of RCEP, cooperation between international stations and logistics parks in the post epidemic era, so as to promote the implementation of a number of projects and cooperation intentions.

Supply Chain Links the Eurasia World Island

A platform for China to participate the global trade and logistics channels exchange.

Standardization of freight rate, insurance, bill of lading and container, real right of bill of lading and swift customs clearance.

The urgent demand of dual circulation system for efficient Eurasian logistics system; RCEP challenges & opportunities

Decoding industry policy and promotes the connection of cargo owners, platform companies, freight forwarders, carriers, logistics industrial park.

Expo profile

Space: 35,000m²
 Number of exhibitor: 240+ Chinese companies
 60+ overseas companies
 Number of visitor: 18,000人
 Delegation groups: Goods Owners, forwarders, supply chain companies

- » Chengdu Supply Chain Association

Why attend?

China market, unlimited opportunities.

China has set out to foster a new development paradigm with domestic circulation as the mainstay and domestic and international circulations reinforcing each other. What we envision is not a development loop behind closed doors, but more open domestic and international circulations. We will do so not only to meet China's own development needs but also for the greater benefit of people in all countries. China has a population of 1.4 billion and a middle-income group that exceeds 400 million. The vastly huge China market is the most promising in the world. Total import into China is estimated to top 22 trillion US dollars in the coming decade. Chinese manufacturing now makes an important and positive part of the global industrial and supply chains. Demand on the massive domestic market in China will continue to unleash endless potential for innovation.

Proposal Topics

- 1.The substitution and complementary role of China Europe Express trains for maritime transportation, the actual flow shift of goods sources and the change of supply chain pattern.
- 2.The Coordinations between Chinese and Russian railways, stations, vehicles and container resources, way to expand railway transport capacity and improve operation efficiency.
- 3.The operation of transit goods from Japan and South Korea via China Europe Express, and the impact of the shortage of westward containers on the supply chain.
- 4.The policy orientation of the decline of train subsidies and the future trend of provincial and state-owned enterprise platforms.
- 5.Capacity of new and expanded stations in Poland, Belarus and Ukraine and their impact on the selection of future train routes.
- 6.Freight volume and cost outlook of Trans-Caspian Sea, and BTK route.
7. Container tracking query platform and its role of alleviating the imbalance of West-East bound goods and the shortage of containers.

Since 2020, China successfully controlled the development of domestic epidemic and became the only major economy to maintain positive economic growth. At present, we have just seen the trend of stabilization, RCEP and EU-China Comprehensive Agreement on Investment have brought hope to the world economic recovery. Under the above background, Central Europe and Central Asia have achieved explosive growth, ensuring the transportation and supply chain stability of key epidemic prevention materials in Eurasian countries. At the same time, it also exposed some problems, such as the weak function of train assembly point, the imbalance of East-West cargo proportion, the low heavy load rate of train, the limited carrying capacity of hub ports and stations. In view of the current situation of global epidemic control and vaccination, only China is qualified to hold the conference in the second half of 2022, and the conference will also become the largest industry event of the Eurasian international train circle in the past three years.

3RD China-CEEC Logistics Secretariat Focal Point Meeting

中国西部-中东欧国家地方合作论坛

West China-CEE Countries State-Province Cooperation Forum 2022

March 30, 2022 Chengdu

Host: **四川省人民政府**  Organizers **成都市人民政府**  **首都会展** 

The People's Government of Sichuan Province

Chengdu Municipal People's Government

Beijing Capital Group Exhibitions & Events

President Xi Jinping chairs the China-Central and Eastern European Countries Summit and delivers a keynote speech via video link in Beijing, capital of China, Feb 9, 2021. 3RD China-CEEC Logistics Secretariat Focal Point Meeting is listed in "2021 Cooperation between China and Central and Eastern European Countries Beijing List of Activities".

"Making decisions through consultation," President Xi Jinping said in the speech. "China-CEEC cooperation is based on mutual respect and has no political strings attached. All countries involved, regardless of their size, are equal partners in a cooperation mechanism featuring extensive consultation, joint contribution and shared benefits."

As the host of the conference, Sichuan Provincial People's government will host a professional and International Conference. The conference was organized by Chengdu Municipal People's government, and the Northstar Sinogold Exhibition Chengdu Co., Ltd. is responsible for the organization and implementation.

China-CEECs Events organized by Northstar Sinogold

In July 2018, Northstar Sinogold signed a tripartite cooperation letter of intent with the Ministry of transport of Latvia and Chengdu to jointly hold 2nd China-CEEC Logistics Secretariat Focal Point Meeting.

On November 28, 2018, 2nd China-CEEC Logistics Secretariat Focal Point Meeting hosted by Northstar Sinogold was successfully held in Chengdu, and the conference results and organizational work were highly recognized by all participants.

In April 2019, 8th Summit of CEE Countries and China held in Dubrovnik, 2nd China-CEEC Logistics Secretariat Focal Point Meeting was included in the "Dubrovnik Guidelines", the outcome document of the summit.

Since 2018, the CEEC Commerce and supply chain exhibition area has been established in the West China International Supply Chain & Logistics Expo, and it will also be held as usual during the epidemic in 2020. The Expo was certified by UFI in October 2020.

Since 2018, Northstar Sinogold has actively used the exhibition platform to hold various theme conferences on China CEEC cooperation, covering aviation logistics, commerce and trade, biomedicine and other fields.

On 9th February 2021, China-CEEC Summit was hosted by China through video link. 3RD China-CEEC Logistics Secretariat Focal Point Meeting was listed in the outcome document of the summit.
