

Chengdu Industrial Clusters Deployment

#	Clusters	Development Target	Important Development Fields
1	Chengdu Hi-tech Industrial Development Zone	Electronic information, biological medicine manufacturing industry and related production-based service industry	<ol style="list-style-type: none"> 1. Software service 2. Integrated circuit (IC) manufacturing 3. Optoelectronic display equipment and components manufacturing 4. Communication equipment manufacturing 5. Avionics equipment manufacturing 6. Modern Chinese traditional patented medicine manufacturing 7. Biological and biochemical products manufacturing 8. Manufacturing of chemical agents for medicines 9. Related enterprises headquarters of main industries and production-based service industry
2	Jinjiang Industrial Clusters	Creative culture, industrial design and related production-based service industry	<ol style="list-style-type: none"> 1. Publications creative design 2. Industrial products creative design 3. Digital advertisement and multimedia production 4. Related enterprises headquarters of main industries and production-based service industry
3	Qingyang Industrial Clusters	Aviation manufacturing industry and related production-based service industry	<ol style="list-style-type: none"> 1. Manufacturing of large components of large civil aircraft 2. Design and manufacturing of medium and small-sized civil aircraft 3. Aircraft parts and components manufacturing 4. Design and manufacturing of aircraft mold 5. Related enterprises headquarters of main industries and production-based service industry

#	Clusters	Development Target	Important Development Fields
4	Jinniu Industrial Clusters	Aviation manufacturing industry and related production-based service industry	<ol style="list-style-type: none"> 1. Research, development and manufacturing of special equipment, control system, equipment and materials for rail transit 2. Integration and service of complete rail transit technology and equipment system 3. Rail transit engineering design, construction and operation 4. Electronic information and biopharmaceutical industry (current situation of western zone) 5. Related enterprises headquarters of main industries and production-based service industry
5	Wuhou Industrial Clusters	Light industry design, electronic information service industry and related production-based service industry	<ol style="list-style-type: none"> 1. Research, development and design of leather products 2. Research, development and design of clothes ornaments 3. Application software service 4. Related enterprises headquarters of main industries and production-based service industry
6	Chenghua Industrial Clusters	Electromechanical equipment research and development and related production-based service industry	<ol style="list-style-type: none"> 1. Research, development and design of heavy machinery 2. Important technical equipment research and development and system integration 3. Electrical equipment research, development and design 4. Related enterprises headquarters of main industries and production-based service industry
7	Chengdu Economic & Technological Development Zone	Automobile and engineering machinery manufacturing industry and related auxiliary production-based service industry	<ol style="list-style-type: none"> 1. Complete and modified automobile manufacturing 2. Automobile assembly and key parts and components manufacturing 3. Automobile electronic products and power battery manufacturing 4. Manufacturing of engineering machinery like loader, excavator, tunnel borer etc. and parts and components 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry and auxiliary production-based service industry
8	Wenjiang Industrial Clusters	Electronic communication equipment manufacturing industry and related auxiliary production-based service industry	<ol style="list-style-type: none"> 1. Mobile communication equipment manufacturing 2. Broadcasting and TV equipment manufacturing 3. Household audio-visual equipment manufacturing 4. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry and auxiliary production-based service industry

#	Clusters	Development Target	Important Development Fields
9	Qingbaijiang Industrial Clusters	Metallurgy and building materials manufacturing industry and related auxiliary production-based service industry	<ol style="list-style-type: none"> 1. Metal rolling processing 2. Glass fiber and glass fiber products manufacturing 3. New composite materials manufacturing 4. Electromechanical equipment and trucks parts and components manufacturing (Qing-Xin joint zone) 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry and auxiliary production-based service industry
10	Xindu Industrial Clusters	Electromechanical equipment manufacturing industry and related auxiliary production-based service industry	<ol style="list-style-type: none"> 1. Electromechanical equipment manufacturing 2. Petroleum drilling and production special equipment manufacturing 3. Automobile parts and components and accessories manufacturing 4. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry and auxiliary production-based service industry
11	Shuangliu Industrial Clusters	New energy equipment manufacturing industry and related auxiliary production-based service industry	<ol style="list-style-type: none"> 1. Solar energy generating equipment manufacturing and system integration 2. Nuclear energy generating equipment manufacturing and system integration 3. Wind energy generating equipment manufacturing and system integration 4. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry and auxiliary production-based service industry
12	Pidu Industrial Clusters	Electronic and electrical equipment manufacturing industry and related auxiliary production-based service industry	<ol style="list-style-type: none"> 1. Electronic components and equipment manufacturing 2. Lighting fixtures manufacturing 3. Power transmission, distribution and control equipment manufacturing 4. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry and auxiliary production-based service industry
13	Dujiangyan Industrial Clusters	Chinese traditional patented medicine and health food manufacturing industry	<ol style="list-style-type: none"> 1. Traditional Chinese medicine drink processing and Chinese traditional patented medicine manufacturing 2. Health food manufacturing 3. Tourism products manufacturing 4. Metal-working machinery manufacturing 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry

#	Clusters	Development Target	Important Development Fields
14	Pengzhou Industrial Clusters	Plastic manufacturing and clothing processing industry	<ol style="list-style-type: none"> 1. Plastic products manufacturing 2. Tire manufacturing 3. Fiber reinforced plastic products manufacturing 4 Textile, clothing and raw and supporting materials manufacturing 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry
15	Qionglai Industrial Clusters	Agricultural and sideline products processing and beverage manufacturing industry	<ol style="list-style-type: none"> 1. Meat products and byproducts processing 2. Liquid milk and milk products manufacturing 3. Decoction pieces of traditional Chinese medicine processing and Chinese traditional patented medicine manufacturing 4. Wine brewage 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry
16	Chongzhou Industrial Clusters	Furniture, leather, decoration materials manufacturing industry	<ol style="list-style-type: none"> 1. Furniture and accessories manufacturing 2. Leather products manufacturing 3. New decoration materials manufacturing 4. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry
17	Jintang Industrial Clusters	WNew building materials and environmental protection equipment manufacturing industry	<ol style="list-style-type: none"> 1. Chemical materials manufacturing 2.Composite building materials manufacturing 3.Structural metal products manufacturing 4. Environmental protection equipment manufacturing 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry

#	Clusters	Development Target	Important Development Fields
18	Dayi Industrial Clusters	Light industrial products and general machinery manufacturing industry	<ol style="list-style-type: none"> 1. Household electrical appliances manufacturing 2. Stainless steel and similar daily-use metal products manufacturing 3. Textile and clothing manufacturing 4. General parts and components manufacturing 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry
19	Pujiang Industrial Clusters	Food and beverage	<ol style="list-style-type: none"> 1. Baking and instant food manufacturing 2. Sugars and tins manufacturing 3. Other food manufacturing 4. Soft drinks manufacturing 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry
20	Xinjin Industrial Clusters	Fine chemical industry and new materials manufacturing industry	<ol style="list-style-type: none"> 1. Refined chemical products manufacturing 2. Synthetic fiber monomer (polymer) and unsaturated resin manufacturing 3. Crystalline silicon materials manufacturing 4. High-strength and high-modulus fiber manufacturing 5. Much attention has been paid to development of relevant upstream and downstream products manufacturing in the industry
21	Petrochemical Base	Petrochemical sector manufacturing industry	<ol style="list-style-type: none"> 1. Crude oil processing and petroleum products manufacturing 2. Organic chemicals manufacturing 3. Comprehensive utilization of resources, cyclical economy and manufacturing of petrochemical downstream products that are difficult to transport

Service Industry Clusters Deployment

Guide for Service Industry's Main Functional Orientation in Districts (Cities) and Counties of Chengdu

District/County/City	Service Industry's Main Functional Orientation
Jinjiang District	Central business district shall be the mainstay, supplemented by the creative culture and rural tourism to build a core district of western shopping paradise.
Qingyang District	Urban cultural tourism industry development shall be the pillar, supplemented by the headquarters economy, central business district and financial service industry to build an important business service function zone.
Jinniu District	Modern wholesale trade development shall be the pillar, supplemented by the creative design industries like engineering design to build the best trade function zone in western China.
Wuhou District	Development of information and science and technology service industry shall be the pillar, supplemented by the airport economy to assume the main function of construction of "National Design Center"
Chenghua District	Industrial headquarters economy development shall be the pillar, supplemented by the cultural and creative industry to build an important function zone of industrial headquarters.
Chengdu Hi-tech Industrial Development Zone	Construction of central business district shall be the focus and also great efforts shall be exerted on development of headquarters economy, finance and information service industry.
Wenjiang District	Development of healthy recreation, commercial service and fashionable consumption shall be made the mainstay.
Pidu District	Culture and education industry development shall be made the pillar to build an important transformation base of education training, production, education and research results.
Xindu District	Development of trade and road logistics shall be made the pillar and it will also mainly assume trade development expansion function of northern new city.
Qingbaijiang	Railway logistics development shall be made the pillar to build the largest railway logistics hub in western China.
Shuangliu District	Construction of southern airport economy shall be made the pillar to build the largest aviation logistics hub and airport economy zone in western China.
Longquanyi District	Development of automobile service industry shall be made the pillar to build an important western industrial business function zone.

Beijing North Star Events Group Co., Ltd
TEL: 010-65262755 010-65800875-005
ADD:1-2-2501, WANGJING SOHO, NO.10 WANGJING ST., CHAOYANG DIST. BEIJING

Important Clusters of Modern Service Industries

Description	Planned Area (km ²)	Functional Orientation
Financial Street on Dongda Street	1	Commerce and finance
Pangang Group Chengdu Steel & Vanadium Co., Ltd. Business and Commerce Zone	0.85	Commerce, trade and finance
Jinjiang Avenue Outskirts Business Zone	1.72	Trade and leisure
Technological and Commercial Zone at Renmin Road South	2	Commerce, trade and electronic information service etc.
Hongpailou Business Zone	3.05	Trade and commerce
Wuhou New City Production-based Service Industry Cluster	1.13	Business service, industrial products display and creative culture
Chengdu East Railway Station Commerce and Tourism Cluster	2	Commercial tourism
Mengzhuiwan Recreational Commerce Cluster	1	Commerce, trade, headquarters and urban leisure
Fashionable and New Business District Cluster on Jianshe Road, Chengdu	0.97	Commerce and trade
Chengdu Mobile E-commerce Industries Cluster	0.49	Mobile e-commerce and service outsourcing
Wannianchang High-end Trade and Commerce Cluster	1.12	High-end trade, commerce, entertainment and leisure
Luomashi Finance, Business and Commerce Zone	1.8	Commerce, trade and finance
Tianfu Square Cultural Zone	0.71	Commerce, trade and creative culture
Central Business District	5.0	Commerce, trade, finance and creative culture
Jinsha-Guanghua Business and Commerce Zone	0.73	Commerce, trade and creative culture
Huanhua Cultural Zone	3.8	Creative culture, metropolitan tourism, commerce and trade
Distinctive Culture Zone of Kuan Alley and Zhai Alley	0.29	Creative culture, metropolitan tourism, commerce and trade
Wenshufang Buddhism Culture Zone	0.5	Creative culture, metropolitan tourism, commerce and trade
Intangible Cultural Heritage Expo	1.3	Creative culture, metropolitan tourism, commerce and exhibition

Trade and Business Zone at Renmin Road North	2	Trade and commerce
Majiahuayuan Business Zone	1.5	Commerce and trade
Huaqiaocheng Tourism and Business Zone	1.81	Trade and tourism
Yangxi Road Yipintianxia Delicious Food, Tourism and Business Zone	2	Catering, tourism and business
Total (23)	36.77	

Agricultural Development Deployment

Characteristic Crop Farming	
Paddy	3.3 million mu paddy production base of national and provincial level shall be built. Districts (cities) and counties such as Longquanyi, Qingbaijiang, Xindu, Wenjiang, Dujiangyan, Pengzhou, Qionglai, Chongzhou, Jintang, Shuangliu, Pixian, Dayi, Pujiang, and Xinjin
Wheat	Wheat planting area of the whole city has been maintained at 1.2 million mu steadily. Districts (cities) and counties such as Qingbaijiang, Xindu, Dujiangyan, Pengzhou, Qionglai, Chongzhou, Jintang, Shuangliu, Pixian, Dayi, and Xinjin.
Potato	780,000 mu production base of high-yield potato shall be built and 100,000 mu virus-free potato planting base shall be built in Pengzhou and Dayi. Districts (cities) and counties such as Qingbaijiang, Xindu, Dujiangyan, Pengzhou, Qionglai, Chongzhou, Jintang, Shuangliu, Dayi, and Pujiang.
Rapeseed	1.4 million mu large-scale and standardized double-low (low content of erucic acid and glucosinolate) rapeseed production base shall be built. Districts (cities) and counties such as Qingbaijiang, Xindu, Wenjiang, Dujiangyan, Pengzhou, Qionglai, Chongzhou, Jintang, Shuangliu, Pixian, Dayi, Pujiang, and Xinjin.
Vegetable	1.05 million mu high-quality and safe urban vegetables production base shall be built; 1.35 million mu high-quality and high-efficiency vegetables production base for exporting shall be built; 400,000 mu high-efficiency out-of-season or greenhouse vegetables production base shall be built. Districts (cities) and counties such as Longquanyi, Qingbaijiang, Xindu, Wenjiang, Dujiangyan, Pengzhou, Qionglai, Chongzhou, Jintang, Shuangliu, Pixian, Dayi, Pujiang, and Xinjin.

Kiwi Fruit	250,000 mu kiwi fruit production base will be built along low-hill areas (altitude of 500m to 1200m a.s.l) of Longmen Mountain. A science and technology industrial park of kiwi fruit will be built in Dujiangyan City. A theme park with kiwi fruit gene bank as its carrier will be built in Pengzhou City. Districts (cities) and counties such as Dujiangyan, Pujiang, Pengzhou, and Qionglai.
Fruit	680,000 mu summer fruit production base dominated by loquats, juicy peaches, early-maturing pears and grapes will be built along hilly areas of Longquan Mountain. A science and technology industrial park of summer fruits will be built in Longquanyi District. Districts (cities) and counties such as Longquanyi, Qingbaijiang, Jintang, and Shuangliu.
Edible Fungus	A wood-decay edible fungus production base covering an area of 100,000 mu and focusing on <i>hypsizygus marmoreus</i> , <i>pteurorus ostreatus</i> and <i>auricularia polytricha</i> (Mont) Sac; a grass-decay edible fungus production base covering an area of 120,000 mu and dominated by <i>agaricus bisporus</i> , <i>volvaria volvacea</i> , <i>agaricus blazei</i> etc. will be built; a valuable and rare edible fungus base of 30,000 mu for exporting will be built. A valuable and rare edible fungus science and technology industry park will be built in Qingbaijiang District and Pixian County respectively. Districts (cities) and counties such as Qingbaijiang, Pengzhou, Jintang, Qionglai, Chongzhou, Dayi, Xinjin, and Pixian.
Flower Seedlings	270,000 mu flower seedlings production base shall be built. A nursery stock industry district that takes Wenjiang District as its core and covers Dujiangyan City, Chongzhou City, Pixian County and surrounding areas shall be formed. Foliage plants production base and science and technology industrial park of flower seedlings shall mainly be built in Wenjiang District, greening nursery stock production base shall be built in Wenjiang District, Dujiangyan City, Chongzhou City and Pixian County, orchid production base shall be built in Dujiangyan City and Chongzhou City, and fresh cut flowers production base shall mainly be built in Jintang County.
Tea	120,000 mu quality tea production bases shall be built along low-hill areas of Longmen Mountain and 230,000 mu along low-hill areas of Qionglai Mountain. A science and technology industrial park of tea shall be built in Pujiang County. Districts (cities) and counties such as Dujiangyan, Pengzhou, Chongzhou, Dayi, Pujiang, and Qionglai.
TCM Materials	TCM materials industry belt with planned area of 250,000 mu shall be built along Longmen Mountain and Qionglai Mountain to mainly develop Chinese goldthread, <i>ligusticum wallichii</i> , <i>radix curcumae</i> and three wood medicine materials like the bark of <i>eucommia</i> , Amur corktree bark cortex <i>phellodendri</i> , <i>mangnolia officinalis</i> etc. Districts (cities) and counties such as Dujiangyan, Pengzhou, Chongzhou, Dayi, and Qionglai.
Bamboo	3.6 million mu bamboo production base shall be built along Longmen Mountain, Qionglai Mountain, Longquan Mountain and the low-hill areas in their extension regions. Districts (cities) and counties such as Dujiangyan, Pengzhou, Chongzhou, Dayi, Qionglai, Pujiang, Jintang, Longquanyi, Shuangliu, and Qingbaijiang. W
Livestock Raising Industry	
Pigs	Three large-scale pure foreign blood excellent boar reproduction bases shall be built respectively in Qionglai City, Shuangliu County, Dayi County, including Qingbaijiang, Xindu, Dujiangyan, Pengzhou, Qionglai, Chongzhou, Jintang, Shuangliu, Dayi, Pujiang, and Xinjin.
Poultry	Longquanyi, Pengzhou, Qionglai, Chongzhou, Jintang, Shuangliu, Pixian, Dayi, Pujiang, and Xinjin.

Aquatic Lives	Cold water fries and adult fish breeding base shall be built to promote development of the city, cold water fish industry. Districts (cities) and counties such as Dujiangyan, Pengzhou, Qionglai, Chongzhou, Dayi, Pujiang and other regions suitable for cold water fish aquaculture.
	Famous aquatic products base shall be built. Districts (cities) and counties such as Qionglai, Chongzhou, Jintang, Shuangliu, Pujiang, and Xinjin.
	Salmon and trout processing factory and sturgeons and caviar processing factory shall be built as auxiliary in Dujiangyan, and Pengzhou.
	Aquatic products processing factory shall be built in Dujiangyan, Qionglai, Shuangliu, and Xinjin, mainly focusing on processing of <i>Ictalurus punctatus</i> , salmon and trout, rice field eel, and loach.
	The leisure and sight-seeing fishery industry integrating watching, fishing and catering shall be focused on in regions near outskirts like Wenjiang, Pixian etc.
Agricultural Products Processing	
Meat Products Processing	Concentration park (point) for pigs and byproducts processing shall be built in the districts (cities) and counties such as Longquanyi, Qionglai, Chongzhou, Jintang, Shuangliu, Dayi, and Pujiang.
	Concentration park (point) for poultry products processing shall be built in the districts (cities) and counties such as Qionglai, Chongzhou, Shuangliu, and Xinjin.
Other Food Processing	Concentration park (point) for tea products processing shall be built in the districts (cities) and counties such as Dujiangyan, Qionglai, Dayi, and Pujiang.
	Concentration park (point) for grain and oil products processing shall be built in the districts (cities) and counties such as Longquanyi, Xindu, Wenjiang, Shuangliu, and Xinjin.
	Concentration park (point) for edible fungus processing shall be built in the districts (cities) and counties such as Qingbaijiang, Dujiangyan, Dayi, and Jintang.
	Concentration park (point) for processing of raw materials and seasonings of Sichuan Cuisine shall be built in the districts (cities) and counties such as Pixian, and Xindu.
	Concentration park (point) for kiwi fruit processing shall be built in the districts (cities) and counties such as Dujiangyan, and Pengzhou.
Feedstock Processing	Concentration park (point) for feedstock processing shall be built in the districts (cities) and counties such as Xindu, Qionglai, Jintang, Shuangliu, and Xinjin.
Agricultural Logistics Industry: 39 agricultural products wholesale markets and agricultural logistics projects are proposed in planned deployment in Longquanyi, Qingbaijiang, Shuangliu, Pengzhou, and Xinjin.
